

Damage policy

SIMULATION REFERENCE ONLY

Damage reports are within the reporting window up to and including 7 days after delivery. The order must be delivered before eligibility can be evaluated. Window eligibility is not approval to issue a refund, replacement or return. Safety incidents and discretionary policy exceptions require human review regardless of the window. Order records are fictional fixtures; these rules are simulation reference only, not real merchant policy.

Policy: fictional_support; version: v1; rule: damage.
